

**South Carolina Recidivism Data:
Fiscal Year 1998 ADSAP Clients Re-Entering ADSAP at the Same Agency
Within Three Years (FY 1999 - FY 2001), By ADSAP Service Category**

Source: Dennis Nalty, Ph.D., Deputy Director for Management Information and Research, South Carolina Department of Alcohol and Other Drug Abuse Services (DAODAS); August, 2003.

Note: Researchers that conducted a meta-analysis of DUI program evaluations found that the average *two-year* recidivism rate for control groups in well-conducted studies was about 19%, ranging from 10% to 33%. [Wells-Parker, E., Bangert-Drowns, R., McMillen, R., & Williams, M. (1995). Final results from a meta-analysis of remedial interventions with drink/drive offenders. *Addiction*, 90, 907-926.]
